

5TH ANNUAL GUARDIANSHIP CONFERENCE—SPOKANE

We have expanded the Spokane conference! This conference is open to anyone who is interested.

Those who attended the 2017 Spokane conference received the following credits:

6-General 4-Emerging Issues 2-Ethics

However, we realize that there may be those who wish to attend this year who need a different blend of credits. So, in an effort to accommodate as many attendees as possible, we will be offering some breakout sessions with a total number of credits/categories as follows:

11-General 3-Emerging Issues 3-Ethics

Six (6) credit maximum can be taking each day.

NOTE: Some of our speakers presented the same topics at the 2018 Bremerton conference. If you attended a Bremerton presentation, you cannot receive credit if you attend the same presentation in Spokane. However, we've done our best to provide a full compliment mixture that should work for most everyone.

Four (4) partial scholarships are still available for this conference. Registration for the full two-day conference must be submitted with the scholarship application in order to qualify. The scholarships go quickly. The application is on the registration form in the conference brochure starting on page 10 of this newsletter.

SPOKANE CONFERENCE CONTINUED

For those who want to take individual sessions, because of the costs involved in organizing these conferences, we need to change the rate to \$50 per session with a minimum of two sessions per day.

THE IMPORTANCE OF SAVING EXPLANATIONS OF BENEFITS (EOB'S)

It seems that our low-income clients always end up at the short end of the stick when there are changes to laws that affect medical care. Not long ago, it was that Medicare would pay for an ambulance to the emergency room but not home, even for clients with severe dementia. In order to appeal, which we at Bridge Builders, Ltd. did successfully a number of times, EOBs for the date of service are needed. Somehow things have adjusted and we haven't had to appeal for this situation for a while.

Now with the change in the laws regarding Opioids, doctors are prescribing over-the-counter (OTC) remedies instead of going directly to a controlled substance. For this I laude the new law because many times the OTC remedies work well and they don't have the risk of falls and other problems that the controlled substances have. However, when a client is on Medicaid, OTC medications are not automatically paid. Until recently, we didn't have too much trouble with this as we would fax DSHS the prescription from the doctor and the documentation from the Medicare Part D plan showing that the Medicare Part D plan denied it. We would appeal and that would be denied and we would include these and DSHS would make an adjustment in participation in order to accommodate the cost of the OTC. But this didn't work recently. When we asked we were told that according to the WAC 182-513-1350 they did not have verification that the drug prescribed was medically necessary (they assume that the doctor prescribed it just for giggles?) and they needed notice that an appeal had been filed with Medicare to have this prescription covered.

When we questioned this we were told that a letter from the doctor was necessary saying that the medication was medically necessary (again, the doctor prescribed it just for giggles?). We said that we had submitted the appeal to Medicare Part D, but were told that we needed to submit an appeal to regular Medicare even though our client was not in a skilled nursing facility. Again, in order to do the appeal, one needs the EOB.

Fortunately, we scan all EOBs into the computer labeled by date so that we (or more likely, my wonderful bookkeeper) can find what we need fairly easily. But, good grief!, this OTC medication was far less expensive than the Opioid and without the side-effect of becoming a fall risk. And then there is the fact that we as guardian for this pro bono client get paid nothing for the additional work required so that our client doesn't get less for personal needs.

This is not the fault of the DSHS financial people. It is the crazy way our government does things. And, yes, I know that I'm ranting about the System but what about the EOBs? Well, we guardians need to keep those EOBs and file them in a way that is meaningful to each of us. If a guardian throws these away, then when an appeal is needed, it requires much, much more work. Scanning is the way to go, if you ask me. Not the slow flatbed scanners but the feeder scanners like ScanSnap. They are on the expensive side but they can save hours upon hours of time on the long run.

ASSISTANCE RECIPIENTS

Client A0004—Skagit County

Mini-grant awarded: \$2,400.00

Amount Expended: \$900.00

Client A0004 is 23 years old with cognitive and medical conditions and not a US citizen. She currently lives in an Adult Family Home. The guardianship is funded through the Public Guardianship Program. She currently does not qualify for SSI or DDA services because she is not a US citizen. The guardian is working with an immigration attorney with the goal of getting her citizenship. She can work but needs a job coach and the job coach funding ran out. The Guardian Institute has approved a \$2,400.00 grant that will cover one-month of job coaching. While the guardian will try to recruit volunteers to help defray the cost but depending on the job she gets, this may or may not be possible. This client needs to be able to work at least until she can qualify for SSI or DDA or both. *There has been some delay in starting the job coaching. The CPG has negotiated a lower hourly rate. If for some reason this plan cannot be implemented, the GI Board has approved using the funds for other needs the client might have.*

Additional donations are needed for continued job coaching.

If you want to apply for a mini-grant or short-term loan on behalf of a guardianship client, please contact the Guardian Institute at info@bridgebldrs.com. The Guardian Institute is willing to consider other financial requests as well.

If you are interested in donating to support these clients, please see the [donation form](#).

CLALLAM COUNTY IS LOOKING FOR VOLUNTEER GUARDIAN ADVOCATES

We have our first volunteer! Now, we're working on figuring out how to connect a potential guardian with an incapacitated individual in need of a guardian. Several people are working on this conundrum.

There is a great need for guardians for our most vulnerable population. The Guardian Institute is looking for volunteers for the Volunteer Guardian Advocate pilot program, starting immediately. The time requirement is an average of five (5) hours each month and each volunteer is asked to commit for 3-years with optional renewal. A Volunteer Guardian Advocate is NOT a caregiver. A Volunteer Guardian Advocate is to advocate for their client's needs and appropriate wants, ensure the client is getting the benefit of all the resources he/she qualified for, assist the client with making medical decisions or make medical decisions on the client's behalf if the client cannot do so.

Basic Requirements:

- Be at least 18 years old
- Be of sound mind
- Have no felony convictions
- Have no misdemeanor convictions involving moral turpitude
- Be a resident of Washington State
- Have completed mandatory (online) training
- Be a person who the court finds suitable
- Commitment renewal every 3-years
- Average time needed is 5-hours monthly
- 1-2 guardianship limit per volunteer
-

The Guardian Institute will provide:

- Arrange legal assistance as needed
- In-person training
- Provide a mentor as needed
- Assistance with Standby Guardian requirement

Contact Bridge Builders, Ltd at (360) 683-8334 or at info@bridgebldrs.com for more information.
